

Power Conditioners/Battery Backups/UPS

We know how critical your telephone system and data network are to your operations. We also know that sometimes things completely out of all our control happen. Downtime from electrical problems such as power spikes, brown outs, black outs and power outages doesn't have to be one of those things if you protect your communications systems with the incorporation of a uninterruptible power supply (UPS).

We have selected the Minuteman Pro E series UPSs. MINUTEMAN is a leading manufacturer of UPSs. This model is amazingly compact and offers a 3 year standard warranty.

MINUTEMAN Enterprise™ Series UPS

500 VA
